Patent Counseling and Prosecution
Intellectual Property
Life Sciences

Dr. Nancy Costigliola focuses her practice on patent portfolio strategies for biotechnology and pharmaceutical companies. Her work includes patent preparation and prosecution, strategic patent counseling, and intellectual property due diligence.

Nancy brings over ten years of academic and industry laboratory experience to her practice in the areas of cell and molecular biology, biochemistry, microscopy, and bioinformatics. Nancy's experience in the pharmaceutical industry includes leading collaborations across research and development, target and small molecule mechanism-of-action discovery, and human assay development. As a post-doctoral fellow at Harvard Medical School, Nancy discovered and characterized the role of cytoskeleton polymers in single cell force transmission.

Education

University of North Carolina at Chapel Hill

PhD, 2012

Cornell University

BA, 2001
